My agent seems reluctant to use your services. How can I assure him that his referral will be redirected back to him?

Your agent can test that the system is working by sending a phantom enquiry. If everything is working correctly he will receive the response.

Will the ArtistLink page rank in Google or other search engines?

Of course you would not want your ArtistLink page to rank higher than your regular website!

In fact, you probably don't want it to rank at all. If ArtistLink builds your webpages, we deliberately remove all elements from your site that would allow Google and other search engines to index your page. If you are submitting your own page, you should consider doing likewise.
